There is an option (“Top-Up”) to increase the annuity by paying an additional Purchase Price/ Premium as a Single Pay at any time after six months after Policy Commencement Date.

- The additional purchase can be made provided the policy is in-force with no due premiums outstanding.

- This will be subject to the product criteria prevailing then with respect to minimum & maximum Age at entry, minimum & maximum Deferment Period (if applicable). However, the minimum annuity instalment limits shall not be applicable for this option.
- The named annuitant(s) in the Top-Up must be same as that of the base policy.
- The prevailing annuity rate for revised purchase price slab and attained age of the annuitant(s) will be applicable for the additional purchase price.
- The policyholder will have a choice to match the timing of the top-up annuity with that of the base annuity. For example: if he opts for 10-year deferment period and pays top-up after 2.5 years, then prevailing annuity rates for deferment period of 7 years and 8 years would be used to derive the annuity rate for 7.5 years.
- Each top-up tranche will be treated as independent in its own right. Hence:
 - Any Top-up tranche can be surrendered independent of the base policy or other top-up tranches.
 - Benefit payable on Death, Survival or Surrender would be calculated separately for the base policy and each top-up tranche and the total would be payable.
- If the Base policy is surrendered, all top-up tranches will also be surrendered at the same time.
